Sub: Requesting financial help in paying hospital bills

Dear Sir/Madam,

I hope you are doing well. I am Prasanth Manimaran, and I am writing this letter with a lot of hope that maybe you could help my mother, Puspah Maruthai. The doctors from **PPUM** (later transferred to HKL for further diagnosis) have diagnosed her hyperactive bladder (urinary frequency). They will have to perform surgery to rectify it.

Unfortunately, we are unable to pay the bill, approximately around RM700, this time because my mother's income has been dramatically affected due to the pandemic and MCOs. Initially, I planned to cover the cost from my scholarship money, but I had to pay for the previous college accommodation and the current semester's tuition fees. Without a doubt, your kind help would help us ease our financial burden in this matter, and we would appreciate it.

I have enclosed a copy of my mother's medical record regarding her health issue for your reference. Would you mind letting me know if you need any more information to determine my mother's eligibility for financial assistance? Thank you so much for considering my humble request.

I appreciate your attention to this matter. I can be reached at 01116266081/0146642285 or prasanthmaran5363@gmail.com if you have any questions or require more information. I hope to have a favorable reply from you soon.

Sincerely,

Prasanth Manimaran
